日本海洋学会会員の皆様：

海洋の放射性核種の”cookbook”について、このメーリングリストを利用して流させていただきます。

SCOR のワーキンググループ RiO5 ( Radioactivity in the Ocean, 5 decades later ) は、オンラインの放射化学の ”cookbook”を公開しました。興味あるカテゴリー（海水、生物、粒状物質、堆積物）、成分（元素/同位体）、作者、または計測方法で検索・閲覧することができます。

古典から最新まで、海洋試料中の放射性核種の処理・測定方法に関する実験手順が示され、自由にダウンロードすることができます。

関係者の皆様からのアップデートも歓迎いたします。

アクセスは CMER ウェブサイト（<https://www.whoi.edu/cmer>）からお願いいたします。

Dear colleagues,

A SCOR Working Group, RiO5  
<[http://www.geotraces.org/index.php?option=com\\_acymailing&ctrl=url&subid=55&urlid=1884&mailid=894](http://www.geotraces.org/index.php?option=com_acymailing&ctrl=url&subid=55&urlid=1884&mailid=894)>, has created an on-line radiochemical "cookbook" that may be of interest to the GEOTRACES community. You can browse your favorite recipes by category (seawater, biota, filters, sediments), search by ingredient (elements/isotopes), author, or by detection methods. You can freely download the latest and greatest recipes and some of the classics, each with step by step lab instructions for the processing of marine samples for detection of radionuclides via counting methods or mass spectrometry.

We also invite you on this site to contribute your own favorite recipes on line at any time.

The easiest way to find it is via the CMER web site <https://www.whoi.edu/cmer>  
<[http://www.geotraces.org/index.php?option=com\\_acymailing&ctrl=url&subid=55&urlid=1883&mailid=894](http://www.geotraces.org/index.php?option=com_acymailing&ctrl=url&subid=55&urlid=1883&mailid=894)> either clicking on the rotating image, or use the link in the top row of the banner.

If you find any bugs, email [cmer@whoi.edu](mailto:cmer@whoi.edu) <<mailto:cmer@whoi.edu>>

Please help us spread the word.
