et programmes internationaux**

**Lista de siglas y abreviaturas de las organizaciones
y programas internacionales**

**Список акронимов и сокращений,
относящихся к международным организациям и программам**

F O R E W O R D

This is the first attempt by the IOC to issue, on a regular basis, a list of acronyms and initials for international organizations, associations, societies, programmes and projects, etc., concerned with marine sciences and ocean services. For this reason it is being issued as an IOC information document being provisional and subject to further revisions. Sources used to identify these marine-related acronyms and initials include publications (e.g. Unesco List of Documents and Publications: 1972-1976; Initials and Acronyms of Bodies, Activities and Projects Concerned with Fisheries and Aquatic Sciences, FAO Fisheries Circular FID1/C11C, Rev. 3) and meeting lists issued periodically by various international organizations. Acronyms and initials also have been identified by reviewing IOC meeting documents and reports, Unesco publications and source material received in the Unesco Marine Information Centre.

Due to the proliferation of acronyms and initials and the added complications which occur when titles and their abbreviations are literally translated, the list is intended only as an aid or guide to users in defining the acronyms and initials that appear in IOC documents and publications and not necessarily as an authority list. We have tried to document the most current usage detected by IOC and hope the list eventually helps to improve on the use of standard nomenclature. It appears in English, French and Spanish, wherever possible, following the alphabetical order of the English acronym. This is a computer-listing and, for technical reasons, we cannot, for the time being, have the cyrillic alphabet typed or printed.

We shall be pleased to receive your help and comments any time you are in a position to amend an incorrect acronym or definition, or to fill in a space left blank in English, French or Spanish. We shall issue a revised version of this list in late 1980.

Please address your comments to:

AVANT-PROPOS

Par le présent document, la COI commence la publication régulière d'une liste des sigles et abréviations des organisations, associations, sociétés, programmes, projets, etc., internationaux concernant les sciences de la mer et les services océaniques. En raison de la nouveauté de l'opération, cette liste a un caractère provisoire et fera l'objet de révisions ultérieures, ce qui explique sa parution comme document d'information de la COI. Les sigles et abréviations retenus proviennent de sources diverses, dont des publications (au nombre desquelles on citera la Liste des documents et publications de l'Unesco : 1972-1976 ; les sigles et abréviations d'organes, d'activités et de projets concernant les pêches et les sciences aquatiques, la circulaire sur les pêches de la FAO FIDI/C110, Rev.3) et des listes de réunions publiées périodiquement par certaines organisations internationales. D'autres sigles et abréviations proviennent du dépouillement de documents et de rapports sur les réunions de la COI, de publications de l'Unesco et de documents d'information reçus par le Centre d'information marine de l'Unesco.

Eu égard à la prolifération des sigles et abréviations, sans compter les problèmes supplémentaires qu'entraîne la traduction littérale de certains titres et abréviations, la présente liste n'a pour seul but que d'aider et d'orienter le lecteur qui chercherait le sens des sigles ou abréviations figurant dans les documents et publications de la COI : par voie de conséquence, elle ne saurait être considérée comme faisant autorité. Nous nous sommes efforcés de relever les termes les plus couramment utilisés et nous exprimons l'espoir que notre liste favorisera à terme l'emploi d'une nomenclature normalisée. La liste donne, chaque fois que possible, des équivalents anglais, français et espagnol, dans l'ordre alphabétique des sigles anglais. S'agissant d'un texte établi par ordinateur, nous ne pouvons pas, à l'heure actuelle, pour des raisons techniques, assurer la dactylographie ou l'impression de l'alphabet cyrillique.

Nous vous serions reconnaissants de bien vouloir nous aider en nous communiquant vos observations, que vous soyez à même de rectifier certains sigles ou définitions inexacts ou de nous signaler des équivalents anglais, français ou espagnols. Nous entendons publier une version révisée de la présente liste à la fin de 1980.

Veillez adresser vos observations à :

M. Steven J. Tibbitt
Commission océanographique intergouvernementale
Unesco
Place de Fontenoy
75700 Paris
France

PREAMBULO

Esta es la primera tentativa que hace la COI de publicar, con carácter regular, una lista de las siglas y abreviaturas de las organizaciones internacionales, asociaciones, sociedades, programas y proyectos, etc., relacionados con las ciencias del mar y con los servicios oceánicos. Por esta razón, se publica como documento de información de la COI, a título provisional y sujeto a revisiones ulteriores. Las fuentes utilizadas para identificar estas siglas y abreviaturas relacionadas con temas marinos comprenden diversas publicaciones (por ejemplo, la Unesco List of Documents and Publications: 1972-1976; Initials and Acronyms of Bodies, Activities and Projects Concerned with Fisheries and Aquatic Sciences, FAO Fisheries Circular FIDI/C110, Rev. 3) y las listas de reuniones publicadas periódicamente por diversas organizaciones internacionales. Las siglas y abreviaturas se han encontrado también revisando los documentos e informes de las reuniones de la COI, las publicaciones de la Unesco y el material original recibido en el Centro de Información Marina, de la Unesco.

Debido a la proliferación de las siglas y abreviaturas y a las complicaciones adicionales que ocurren cuando los títulos y sus abreviaturas son traducidos literalmente, la lista se considera únicamente como una ayuda o guía para los usuarios, al identificar las abreviaturas y las siglas que aparecen en los documentos y publicaciones de la COI, y no necesariamente como una lista oficial. Hemos tratado de documentar el uso más corriente comprobado por la COI y esperamos que la lista ayude en último término a mejorar la utilización de una nomenclatura estándar. La lista aparece en español, francés e inglés, cuando es posible, siguiendo el orden alfabético de las siglas en inglés. Se trata de una lista preparada con computadora y, por razones técnicas, no podemos, por el momento, disponer del alfabeto cirílico mecanografiado o impreso.

Tendremos mucho gusto en recibir su ayuda y sus comentarios en todo momento en que Vd. pueda corregir una sigla o abreviatura o definición incorrectas, o llenar un espacio dejado en blanco en español, francés o inglés. Publicaremos una versión revisada de la lista a fines de 1980.

Sírvase enviar sus comentarios a la dirección siguiente:

ПРЕДИСЛОВИЕ

Данный документ является первой попыткой МОК издать список акронимов и сокращений, относящихся к международным организациям, ассоциациям, обществам, программам и проектам и т.п., которые занимаются океанографией и океаническими службами. По этой причине он выпускается в качестве предварительного информационного документа МОК, который в дальнейшем будет пересматриваться. Источники, использованные для определения акронимов и сокращений, относящихся к морским наукам, включают публикации /например, Список документов и публикаций ЮНЕСКО за 1972-1976 гг.; Сокращения и акронимы организаций, мероприятий и проектов, связанных с рыболовством и водными науками, Циркуляр ФАО по рыболовству FIDI/C110, Rev.3/ и списки совещаний, публикуемые периодически различными международными организациями. Акронимы и сокращения определялись также путем пересмотра документов и докладов совещаний МОК, публикаций ЮНЕСКО и источников, получаемых Центром морской информации ЮНЕСКО.

Ввиду резкого увеличения числа акронимов и сокращений и дополнительных трудностей, возникающих при буквальном переводе названий и их сокращений, список следует рассматривать как справочное пособие или руководство для потребителей в определении акронимов и аббревиатур инициального типа, которые появляются в документах и публикациях МОК, а не обязательно как директивный документ. Мы попытались включить в документ наиболее частое употребление словарных единиц, выявленных МОК, и надеемся, что список, в конечном счете, поможет улучшить употребление стандартной номенклатуры. Он выходит на английском, французском и испанском языках и, по возможности, дается в алфавитном порядке английских акронимов. Этот список будет заложен в ЭВМ, и по техническим причинам мы не можем дать его в настоящее время русскими буквами.

Мы будем очень рады получить от вас помощь и замечания в любое время в виде поправок к ошибочно данному акрониму или определению, или в виде заполненных пропусков на английском, французском или испанском языках. Пересмотренный вариант данного списка мы опубликуем в конце 1980 года.

Просьба направлять ваши замечания по адресу:
