IOC Training Course Report No. 61  
Paris, 5 December 2001  
English only

**Abstract**

The First ODINAFRICA Training Course on Marine Information Management was held in Cape Town, South Africa, kindly hosted by Marine and Coastal Management at the Research Aquarium, Sea Point. Seventeen out of twenty ODINAFRICA countries were able to send a participant. The course included theoretical lectures on Information Management as well as a practical hands-on course on the use of the Integrated Library Management System (ILMS) INMAGIC for Libraries which was identified by the IODE Steering Group for the Resource Kit (Miami, March 2001) as a suitable software for this purpose. Discussions were also held on the results of an institutional survey filled by the participants during the course.

## 1. INTRODUCTION

The First ODINAFRICA Training Course on Marine Information Management was held in Cape Town, South Africa, kindly hosted by Marine and Coastal Management at the Research Aquarium, Sea Point. All ODINAFRICA participating countries, through their ODINAFRICAN National Coordinator, were invited to identify a suitable participant (librarian with computer expertise) who would, subsequent to the course, be responsible for the implementation of the agreed upon work plan.

Seventeen out of twenty ODINAFRICA countries were able to send a participant. Countries who were unable to attend were Benin, Côte d'Ivoire and Cameroon. In order to ensure full cooperation of these countries in the ODINAFRICA Marine Information Management programme alternative arrangements for their training will need to be made.

Following the First Session of the IODE Steering Group for the Resource Kit (Miami, March 2001) a comparison had been made of a number of Integrated Library Management System (ILMS) software packages for small, specialized libraries. As a result of this comparison the Steering Group had recommended INMAGIC's DB/TextWorks for Libraries. Accordingly this software was purchased for all ODINAFRICA cooperating institutions. Between two and four licenses were provided to the libraries, in accordance with their request. Additionally, the Web Publisher Lite was purchased and installed on the IOC's web server to host the ODINAFRICA Union Catalogue (which will be a merged copy of all ODINAFRICA national library catalogues). Training material for the DB/TextWorks courses and practicals were provided by INMAGIC's Africa dealer MINDEX (based in South Africa)

Theoretical Lectures were provided by Prof.Dr. Paul Nieuwenhuysen (University Library, Free University of Brussels, Brussels, Belgium), Mrs. Linda Pikula (NOAA Miami Regional Library, Miami, United States), Mrs. Pauline Simpson (Head of Information Services National Oceanographic Library, Southampton Oceanography Centre, United Kingdom), Dr. Murari Tapaswi (Librarian National Institute of Oceanography, Dona Paula, Goa, India). Practical training in the use of the INMAGIC DB/TextWorks for Libraries was provided by Mr. Johan Van Wijck and Mrs. Bella Odendaal.

## 2. INSTITUTIONAL SURVEY

In order to obtain detailed information on the level of development and capacity of each participant's information centre/library a detailed survey form was distributed during the course. A copy of the original survey form is attached as **Annex III**. The results are provided below.

### 2.1 COMORES

#### Participant Information

Participant: **Mme ABDOU RAOUF Echata**  
Institution: **Centre National de documentation et de la recherche scientifique (CNDRS)**  
**National Centre of Documentation and Scientific Research (CNDRS)**  
Address: **PO Box 169**  
**Moroni**

Educational background: **Maîtrise de géographie**  
Current job since: **January 2001**  
Worked in a library since: **n/a**  
Job full-time or part-time?: **part-time**

#### **Institutional Information**

Does your institution have an ocean related library/information centre? **NO**  
If no, explain why you were assigned to participate in this training course:  
**I am charged to develop an information center specialized in marine sciences**

#### **Computer Infrastructure:**

Do you have computer equipment in your library **YES**  
How many PCs do you have in the library: **2 (received from ODINAFRICA)**  
How many are used for the management of the library: **1**  
How many are available to users: **1**  
Are the computers of your library networked (LAN): **NO but this is planned**  
Do your computer(s) have access to the Internet: **NO but this is planned**

#### **Linkage with data management**

Is your library in the same institution as the ODINAFRICA data center? **YES**  
If yes then do you have good contacts with the data center? **YES**

#### **Information on Users**

Currently no users

#### **Institutional Subject Coverage**

The CNDRS is a multi-disciplinary research institution covering:

- Environment (marine and land)
- Biology
- Archaeology
- Geology/ Volcanology
- Human Sciences (Anthropology)

## **2.2 GABON**

Participant: **Mme. NDOND Pétronille-Léa**  
Institution: **Bibliothèque Centrale de l'UOB**  
Address: **PO Box 17013**

**Services provided by the library/information centre:**

- Library (holding books, journals, etc): **YES**  
can users borrow materials: **YES**
- Reading room: **YES**
- National Interlibrary Loans ILL (enabling patrons to obtain materials from other libraries in your country): **YES informal**
- International Interlibrary Loans ILL (enabling patrons to obtain materials from other libraries outside your country) **YES (with MQAR Canada)**  
If yes then do you use electronic library loan (eg using ARIEL or other scanner-based software): **YES**  
  
If yes then specify: **ARIEL**
- Access to bibliographic search tools (eg ASFA, Science Citation Index,...): **YES**  
if yes: specify which and medium (eg diskette, CD-ROM, Internet):  
**ASFA Internet (paid).**
- Multimedia access (audiotape, videotape): **YES**  
If yes then specify and describe: **videotapes /CD-ROMs**
- Internet access for users: **YES (permanent connection)**

**Products developed by the library/information centre:**

Does the library/information centre develop products? (brochures, directories, posters) **NO**

**Library Catalogue**

Does the library maintain a catalogue of its holdings : **YES**

Is the catalogue and electronic catalogue: **NO**

What classification system do you use for your library holdings? **ASFA**

**Library Management Systems**

If your library uses a computerized catalogues system then do you use this system also to manage other parts of the library services (eg serials, acquisitions, ILL,...). In other words does your library have an Integrated Library Management System (ILMS). **NO**

**Computer Infrastructure:**

Do you have computer equipment in your library **YES**

If yes then:

How many PCs do you have in the library: **2**

How many are used for the management of the library: **1**

How many are available to users: **1**

Are the computers of your library networked (LAN): **YES**

If yes then are the library computers linked to an institutional LAN: **YES**

If yes then do you have access to a server where you can store files: **YES**

Do your computer(s) have access to the Internet: **YES**

Email only or email:WWW: **email + WWW**

**Library Holdings:**

Number of Monographs (books, reports,...) : **30,000**

Number of serials: **1500 titles**

Number of CURRENT journal subscriptions for which you pay: **25**

Number of CURRENT journal subscriptions which you receive on an exchange basis: **50**

If exchange: specify the journal/other publication that you provide: **Bulletin de l'INSTM**  
Total shelf space in linear meters: **n/a**

#### **Library Networking**

Is your Library part of a national library network: **YES**

If yes then describe the network and what services you get from the network: **for sharing periodicals**

Is your Library part of an international library network: **NO**

Is your Library (or yourself) a member of a professional librarian organization/society (eg IAMSLIC): **NO**

#### **Linkage with data management**

Is your library in the same institution as the ODINAFRICA data center? **YES**

If yes then do you have good contacts with the data centre: **YES**

#### **Information on Users**

User types:

- Researchers from institution (approx. 70)
- University Students
- General Public (occasional)

Users/month: no information available

#### **Institutional Subject Coverage**

Subjects covered:

- oceanography
- microbiology
- fisheries
- aquaculture
- fisheries techniques
- fisheries biology
- marine environment
- coastal studies
- physical oceanography

### **3. DISCUSSIONS**

In order to ensure effective implementation of the ODINAFRICA Marine Information Management programme, discussions were held to assess problems faced by the participants in their institution.

The following main problems were highlighted by the participants:

- researchers prefer to develop their own personal library rather than develop a shared library;
- most libraries do not have funds to maintain subscriptions to core journals;
- libraries are a low priority in most libraries and librarians have little impact on institutional management;

It was felt that cooperation with the data managers should be improved, as there is too little awareness about each other's work. Accordingly the participants recommended to organize the next data management and information management training courses back-to-back.

#### 4. TAKE-HOME CD-ROM

In order to enable the participants to review the course material used during this first session, a copy of the OceanTeacher MIM module was distributed. This CD contains copies of all course presentations. The module will also be included in the OceanTeacher web site (<http://www.oceanteacher.org> )

#### 5. WORKPLAN

It was agreed that the next marine information management training course should be held in April 2002 and, as indicated above, back-to-back with the next data management training course.

In order to prepare for the next Training Course we have prepared the following list of tasks should be completed:

- **DEVELOPMENT OF LIBRARY CATALOGUE AND IMPLEMENTATION OF INTEGRATED LIBRARY MANAGEMENT SYSTEM (ILMS)**
- **SET UP SUPPLIERS AND JOURNAL AGENTS IN ILMS (INCLUDING ODINAFRICA PARTICIPATING LIBRARIES IN- AND OUTSIDE AFRICA)**
- **COMPLETE A BUSINESS PLAN FOR LIBRARY**
- **COMPLETE A COLLECTION DEVELOPMENT POLICY**

##### 5.1 DEVELOPMENT OF LIBRARY CATALOGUE AND ILMS

Participants will start developing their library catalogue as soon as possible. Detailed instructions to correctly install the INMAGIC DB/TextWorks for Libraries software were included in the CD-ROM.

It was recommended that the participants should start cataloguing monographs, serials, journal articles or any other item which may be considered as a first priority for the library and its users.

Reference was also made to the printed Manual '**Comprehensive Library Module Training Manual**' (the Workbook) that was distributed to you during the Course by the INMAGIC dealer.

#### **DATABASE CONVERSION SERVICE**

In those cases where records are already available in another software (eg CDS/ISIS) participants were invited to hand them over to Dr Murari Tapaswi during the course or email or mail them to him:

Dr. Murari TAPASWI  
Librarian  
National Institute of Oceanography  
Dona Paula  
Goa 403 004  
India  
Tel: +91 832 226 253  
Fax: +91 832 223 340  
e-mail: [murari@darya.nio.org](mailto:murari@darya.nio.org)

Dr Tapaswi will convert the 'old' records and return the DB/TextWorks version which can then be imported into the new holdings database.

### **ODINAFRICA MIM LIBRARY DATABASE HELPDESK**

During the Cape Town Training Course Josette Confait kindly volunteered to be the ODINAFRICA MIM Library Database Helpdesk. She will be able to assist with any database building question that is not directly related to the setting up and functioning of the INMAGIC software (as those problems will be dealt with by MINDEX - see below).

Ms Josette CONFAIT  
Seychelles Fishing Authority  
PO Box 449  
Fishing Port  
Mahé  
Tel : +248 224 597  
Fax: +248 22 45 08  
e-mail: [j.confait@odinafrica.net](mailto:j.confait@odinafrica.net)

Josette will also assist with quality control (she will check whether the data have been entered in the right field, and whether not too many typing errors were made) of new records. New records should therefore be submitted at the end of each month to Josette by email or on diskette. She will then check ther records and, after correction, return the corrected records to the originator and also to the IOC in Paris, where they will be added to the centralized ODINAFRICA Library Holdings Database.

Note that in cases where too many errors have been made, Josette will return the records to the originator uncorrected

### **INMAGIC Technical Support**

Together with the software, IOC has purchased a 'service agreement' for the software. This means that for a period until the end of 2002 (we may renew this agreement at the end of 2002) it will be able to obtain assistance from INMAGIC through its dealer in South Africa MINDEX. The support provided should concern technical questions (for example problems with installing the software, questions on how to do certain functions etc. ) Questions that relate to content of the database and how to fill a field should be addressed to Josette. Support at MINDEX will be provided by Bella Odendaal:

Mrs. Bella ODENDAAL  
MINDEX (Inmagic)  
2 Merry Rocks Street  
Durbanville, 9770  
South Africa  
Tel: +27 21 9760515  
Fax: +27 21 976  
e-mail: [mpt@cis.co.za](mailto:mpt@cis.co.za)

## **5.2 SET UP SUPPLIERS AND JOURNAL AGENTS IN THE ILMs**

In the DB/TextWorks For Libraries software enter a list of Suppliers and Journal Agents. All ODINAFRICA Participating Libraries in Africa (ie the participants in the ODINAFRICA project) should be entered. Cooperating libraries outside Africa (the ODINAFRICA Information Services Centre in Mombasa, Kenya will provide details (Contact Mika Odido for this information: [m.odido@odinafrica.net](mailto:m.odido@odinafrica.net) or [m.odido@unesco.org](mailto:m.odido@unesco.org) )

**5.3 COMPLETE A BUSINESS PLAN FOR YOUR LIBRARY**

We refer to the presentation by Linda Pikula on the CD-ROM

**5.4 COMPLETE A COLLECTION DEVELOPMENT POLICY**

We refer to the presentation by Pauline Simpson on the CD-ROM.

**6. CLOSURE**

The First ODINAFRICA Training Course on Marine Information Management was closed on Friday 9 November 2001 at 13h00.

**ANNEX I**  
**Course Programme**

1. Opening [*Mika Odido*]
2. IODE Introduction [*Mika Odido*]
3. Introduction of participants
4. Information concepts [*Paul Nieuwenhuysen*]
5. Evaluating the need for an information centre [*Murari Tapaswi*]
6. Business Plan [*Linda Pikula*]
7. Introduction of IAMSLIC [*Linda Pikula*]
8. Bibliographic Tools for Ocean Sciences, an example: NISC [*Sarah Lawrie*]
9. ODINAFRICA: needs assessment of the participating institutions [*Peter Pissierssens*]
  - a. Analysis of the Institutional Surveys
  - b. Objectives of ODINAFRICA
  - c. Problems faced by African ocean libraries and how ODINAFRICA can assist
10. Working with Information Technology [*Paul Nieuwenhuysen*]
  - a. Hardware
  - b. Software
  - c. Storage
  - d. Scanning
11. Information seeking in an electronic environment [*Paul Nieuwenhuysen*]
  - a. Databases and computerized information retrieval
  - b. Knowledge organization: classifications and thesaurus systems
12. Building and documenting a collection [*Pauline Simpson and INMAGIC trainer*]
  - a. Introduction
  - b. INMAGIC as an Integrated Library Management System (ILMS)
13. Setting up user services (introduction) [*Pauline Simpson*]
